Chicago, IL | 872-340-5928 | [mansidungrani13@gmail.com](mailto:mansidungrani13@gmail.com) | <https://www.linkedin.com/in/mansidungrani/>

## SUMMARY

Full-stack developer (3+ yrs) and M.S. ITM candidate at Illinois Tech (GPA 4.00). Builds clean, reliable apps with React/Vue, TypeScript, Tailwind, Django/Laravel, and REST APIs on SQL/NoSQL. Hands-on with AWS (S3, CloudFront, ACM, Route 53), CI/CD (GitHub Actions + OIDC), Docker, testing, and performance tuning. Strong collaborator who ships features end-to-end with readable code, automation, and measurable results.

## SKILLS

- Frontend: React, Next.js, Vue.js, JavaScript, HTML, CSS, Tailwind CSS, Bootstrap, SASS/SCSS
- Backend: Django, Python; Laravel, PHP; REST APIs
- Database & Tools: MySQL, MongoDB Atlas, Git/GitHub, npm, Vercel
- CI/CD: GitHub Actions (pipelines, caching, artifacts)
- AWS: S3, CloudFront (OAC, cache-control, invalidations), Route 53, IAM OIDC

## WORK EXPERIENCE

### Teaching Assistant

- ITM Department, Illinois Institute of Technology, Chicago IL August 2025 - December 2025
- Mentored students in weekly labs and office hours, unblocking issues in HTML semantics, CSS (Flexbox/Grid, responsive), and JS (DOM/events, fetch).
  - Provided code reviews via Git/GitHub and created lab guides/debugging checklists, improving lab completion rates and reducing regrade requests.

### Web Developer

- Gopaneer LLP, Surat, India July 2020 - September 2023
- Built Laravel + Vue apps with REST APIs and modular components, improving delivery speed and maintainability. Created custom themes/plugins; authored a reusable Vue "select" (images + dynamic fields) that reduced admin errors.
  - Biddo.net (ad-management platform): implemented a dynamic Vue.js front end and scalable Laravel back end enabling advertisers to design and manage multi-platform campaigns.
  - Hardened security with Sanctum/JWT, robust validation, and role-based access control; enforced audit trails and error logging.
  - Collaborated with designers and QA; conducted code reviews and managed releases via Git.

### Intern Trainee

- Gopaneer LLP, Surat, India January 2020 - June 2020
- Gained hands-on experience with PHP, Vue.js, HTML, SASS, react; assisted senior engineers in feature development and bug fixes across multiple client projects.

## PROJECTS

### Appointment Booking System — React, Django, Tailwind

- Implements JWT auth and role-based access for patients and doctors; building appointment slot logic and email notifications. Front end in React + Tailwind; backend APIs in Django REST Framework; DB: Django built-in database.

### FlavorBook — Next.js, MongoDB Atlas

- Full-stack recipe app to add/edit/delete/view recipes; implemented form validation, image handling, and server actions (Next.js App Router).

### QuickChat — Firebase

- Built registration, profile management, and real-time messaging using Firebase Auth/Firestore.

### Library Management System

- Multi-user, role-based platform (admin, librarian, member) to streamline cataloging & checkouts.

## EDUCATION

- Illinois Institute of Technology, Chicago, IL January 2024 – December 2025
- Information Technology and Managemen**, GPA: 4
- Selected coursework: Object-Oriented Programming, Web Application Foundations, Project Management, Software Testing, Advanced Software Programming, Intelligent Device Applications.

- C. B. Patel Computer College, Surat, India May 2020
- Bachelor of Computer Applications**, GPA: 7.39/10
